Xact Check Website Re-launch

A new look and feel for easier navigation and greater user experience

WASHINGTON, DC–August 4 2009–Xact Check, Inc., a leading provider in online employment screening services, has recently undergone a complete website re-design resulting in a more clean, modern and organized look for easier user navigation making it easier to find information about the services provided.

In an effort to provide streamlined online access for its clients Xact Check has implemented a web based application which allows clients to easily manage their orders. This flexible online environment provides easy client ordering and data retrieval, as well as efficient integration with Xact Checks screening results. All data exchange is secure through a HR-XML certificate.

Xact Check's solutions page will contain more resources in a more centralized manner for easier accessibility including PDF downloads of key features and benefits. To facilitate streamlined communication within each department visitors can now visit the contacts listing page.

Among the sites new features is the introduction of the XC Blog as a way to keep visitors informed of all the latest employment background screening related news and education. "Social media has become the primary way in which a company can interact with their audience in a meaningful way and we're excited to see what kind of response we will get." said Laura Grageda, Chief Marketing Officer, Xact Check. Additionally, the creation of a mailing list will allow subscribers to receive periodic updates directly to their inboxes.
